PREFACE

The publishers herewith present the twentieth annual issue of the Jacksonville City Directory, with the assurance that no pains nor expense have been spared to produce a work which in respect of completeness and accuracy, cannot be improved upon. The scope of the present volume has been increased to meet the growth of the city and as rapidly as the outlying portions and various additions to the city are built up and populated, the territory covered by the City Directory is increased to meet the requirements. The Street Guide or Directory of Householders has been improved and enlarged and shows a gain of thirty pages over the last issue.

The department of miscellaneous information beginning at page 73 is a complete and comprehensive guide to the State, County and City governments, Churches, Public and Private Schools, Banks, Courts, Hospitals and Asylums, Clubs, Benevolent, Literary and other associations, Labor Unions, Secret Societies, etc. This is followed by the Street Directory or Householders' Guide, pages 93 to 202, which consists of the name and description of each street and avenue in alphabetical order, the numbers on each street also being shown together with the names of the occupants of each building and at what number the intersecting streets cross. By the use of this department the exact location of any house or building in the city can be immediately and exactly ascertained.

The Alphabetical List of Names commencing at page 203, contains the names of all business firms and corporations and the inhabitants of the city over a certain age, together with the occupation and residence address of each individual.

The Classified Business Directory, the concluding department, is a complete exhibit of the commercial, manufacturing, professional, financial and other business interests of the city, arranged in alphabetical order under their respective headings.

POPULATION

The customary means of estimating the population of a city, is to multiply the number of names in the City Directory by $2\frac{1}{2}$ to allow for the names of women and children not included in the Alphabetical List of Names. In the present volume there are 48,745 names. By use of the above multiple, a population of 121,863 is indicated for Jacksonville and contiguous territory. In comparing this estimate with estimates made from other sources, it should be born in mind that the territory embraced in the directory canvass is not confined to the city limits, but is extended to include the immediate suburbs, the inhabitants of which are so closely identified with the city that a directory which did not include South Jacksonville, Ortega, and the various additions to the city on the north and west, would not be complete.

In conclusion, the publishers desire to extend their grateful appreciation to the patrons of the work for their support and the public in general for their co-operation in furnishing the desired information, both of which are necessary to assure a modern directory for a modern city.

Respectfully,

R. L. POLK & CO.,
Publishers.

Where does your Advertising

When your advertising matter goes out hit or miss to any old sort of a list of names, there's bound to be tremendous waste.

Polk's lists are different—because they are based on original data—the data that goes into Polk's 400 City, County, State and National Directories. Directory publishing is our principal business.

98% delivery is guaranteed on our lists—can you ask for any better proof of efficiency?

Form letters—well executed—command attention. We do addressing, multi-type-writing, filling in, folding, enclosing and mailing.

"The Big Furniture Store"

Furnishes Everything for Your Home

LOWEST PRICES—HIGHEST QUALITY—EASIEST TERMS

Read these Seven Reasons

WHY YOU SHOULD BUY YOUR FURNITURE FROM RHODES---FUTCH---COLLINS

BECAUSE—We carry the largest and most complete stock of popular priced and fine furniture in Florida.

BECAUSE—We have a chain of thirteen great stores in the South whose enormous volume of business affords us a wonderful advantage in buying our stock.

BECAUSE—We are backed by over ten million dollars. We discount all our bills, which enables us to buy at the very lowest prices possible.

BECAUSE—When you buy from this store you have a positive guarantee that you have bought at the lowest prices that goods of the same grade can be sold for.

BECAUSE—When you buy from this store you are buying goods that are absolutely guaranteed to be as represented—or your money back in a hurry.

BECAUSE—We want only satisfied customers. We don't want your business just for the money we get from you. If we can't satisfy you, without any argument we don't want your money.

BECAUSE—The salesmen you meet in this store are cultured, courteous gentlemen, experienced in the fine art of home furnishing and are always able to solve your home problems.

WHO DOES YOUR LAUNDRY

And the next question

Is it done properly?

We have a distinctive way of laundering—we study your interests ahead of our own. It's not philanthropy, either. It's simply sound business policy to please

you with meritorious service. We figure that a satisfied customer is our best asset.

NOW IT'S UP TO YOU

If you want your linen to enjoy long life, to be spotlessly clean, to have exactly the right finish—send it to us.

We'll use no acids or chemicals on it—just soap, pure soft water and plenty of "know how" and send you back a bundle that will be a pleasant surprise.

(Florida's Famous Soft Water Laundry)

**Four Complete and Separate

IN our department for Private Family Household Linen, each family is given an individual tub immediately on the reception of the work at the plant, it never coming in contact with the work of anyone in its entire course through the plant. This is well worth thinking about.
